During March 2020, several measures have been implemented in Canada and the rest of the world in response to the increased impact from novel coronavirus (COVID-19). The Company continues to operate our business at this time. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on our business operations cannot be reasonably estimated at this time and we anticipate this could have an adverse impact on our business, results of operations, financial position and cash flows in 2020.

Should the Company be required to realize the value of its assets in other than the ordinary course of business, the net realizable value of its assets may be materially less than the amounts shown in the financial statements. These financial statements do not include any adjustments to the amounts and classifications of assets and liabilities that may be necessary should the Company be unable to repay its liabilities and meet its other obligations in the ordinary course of business or continue operations.

2. BASIS OF PRESENTATION

2. BASIS OF PRESENTATION (continued)

Basis of Presentation

These consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments which have been measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information. All monetary references expressed in these notes are references to Canadian dollar amounts (“\$”). These consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company.

Critical Accounting Judgments, Estimates and Assumptions

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable in the circumstances. Uncertainty about these judgments, estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Information about significant areas of estimation uncertainty considered by management in preparing the financial statements are set out in Note 2 to the audited financial statements for the fiscal year ended December 31, 2019 and have been consistently followed in preparation of these condensed consolidated interim financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies followed by the Company are set out in Note 3 to the audited financial statements for the fiscal year ended December 31, 2019 and have been consistently followed in preparation of these condensed consolidated interim financial statements.

(“**Mega**”) to acquire a 100% interest in the Ben Lomond and Georgetown uranium projects in Australia (the “**Mega Option Agreement**”), in consideration of the issuance of 900,000 common shares and 900,000 common share purchase warrants (each, an “**Acquisition Warrant**”), each Acquisition Warrant entitling the holder to acquire a common share at an exercisable price of \$0.30 per common share for a period of 24 months from the date of issuance; and \$180,000 in cash. The option on the Ben Lomond property is exercisable, at CUR’s election on or before the second anniversary of entering into the agreement, for additional consideration of \$2,500,000, payable in cash or shares of CUR. Subject to the exercise of the Ben Lomond option, Mega has the right, for a period of 120 days from the exercise of the Ben Lomond option, to sell the Georgetown project to CUR for additional consideration of \$500,000, payable in cash or shares of CUR. The Mega Option Agreement is subject to FIRB approval in Australia.
